6 - Data access granted

In accordance with research data management and governance processes, INSIGHT enables access to the anonymised dataset for the research applicant via INSIGHT's Secure Research Environment

5 – Access agreement

A data access or data licence agreement (contract) is negotiated and drafted between the NHS Data Controller and research applicant. The agreement reflects the commitments to the Five Safes framework

4 - Final assessment and decision

Informed by the DataTAB advisory recommendation, the Director of INSIGHT makes a final assessment with referral for onward decision by the NHS Data Controller and with an official feedback letter to the research applicant

INISIGHT

Discovery | Innovation | Care

1 - Enquiry

Research applicant accesses online guidance and resources, including the Data Use Application form based upon the Five Safes framework, and submits a completed Application to: enquiries@insight.hdrhub.org

2 - Application review

The Application is reviewed by INSIGHT with the NHS Data Controller, including detailed clinical data, technical, scientific, legal and governance assessment

3 - Evaluation

The Application is submitted by INSIGHT for review by the Data Trust Advisory Board (DataTAB) — the independent panel comprising patients, public and experienced stakeholders — with particular focus on ethics and patient benefit
